AgriFoodX5.0 EU co-funded project for strengthening Cluster and SME knowledge and network in Europe within agrifood and 5.0 industry

AgriFoodX5.0 partners participates in the DeepEst deeptech forum event

The DeepEst deeptech forum event, organized by EIT Digital, was aimed at elevating and boosting the Nordic and Baltic deep tech ecosystem, fostering innovation, and propelling the region to the forefront of the global deep tech landscape.

The event featured keynote speeches, panel discussions, and networking opportunities on topics such as funding, MVP creation, and IP transfer and commercialization of deep tech ventures.

The event was very valuable for the whole AgriFoodX5.0 partnership, as it allowed to gain new insights, contacts, and opportunities for collaboration in the field of deep tech, AI and robotics for the agri-food industry.

Strengthening the European economy through collaboration

AgriFoodX5.0 partners participates in the Startup Days event

The Startup Days event was a three-day business festival that brought together over 3500 startup-minded people to celebrate entrepreneurship in the smart city of Tartu. The event had a vibrant and inspiring program that included stage talks, seminars, demo areas, pitching competitions, and side events on various themes.

The event was very valuable for the whole AgriFoodX5.0 partnership, as it allowed to gain new insights, contacts, and opportunities for collaboration in the field of deep tech, AI and robotics for the agri-food industry.

AgriFoodX5.0 partners participates in the AIRE CLUB #21 STARTUP DAY 2024 event

The AIRE CLUB #21 STARTUP DAY 2024 event was an exclusive side-event of the **Startup Days**, dedicated to talk about **artificial intelligence** and meet up with other **European Digital Innovation Hubs (EDIHs)** and their clients around the area.

The event showcased international **AI** use cases from **Estonia, Finland, Germany** and **Sweden**, and offered networking and matchmaking opportunities supported by **AIRE EDIH** and **Enterprise Europe Network**.

The event was very valuable for the whole **AgriFoodX5.0** partnership, as it allowed to gain new insights, contacts, and opportunities for collaboration in the field of deep tech, AI and robotics for the agri-food industry.
